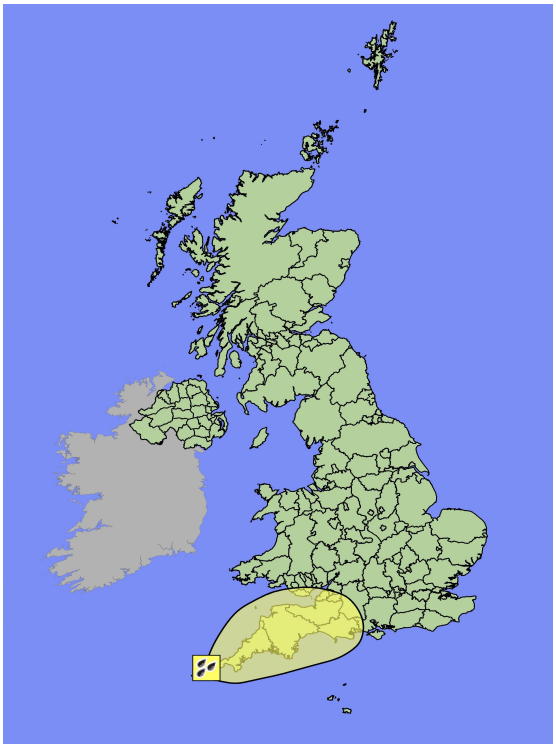
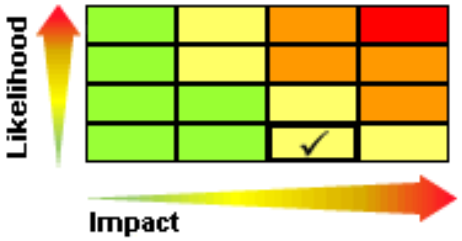
National Severe Weather Warning Service





Chief Forecasters Assessment
Active frontal systems are destined to move across the UK on Wednesday. There is uncertainty in the details, but the amounts and the intensity of the associated rain may be sufficient to caused further flooding problems. Totals could exceed 20mm.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **06:00 on Wed, 26th Dec 2012** until **23:59 on Wed, 26th Dec 2012**

An area of heavy rain will move east across the region during the day. The public should be aware that given the continuing saturated state of the ground this may lead to further localised flooding.
